About Alexandra Hospital

Part of the National University Health System (NUHS) since June 2018, Alexandra Hospital (AH) is Singapore's first integrated general hospital that provides a single continuum of care across different care settings. We aim to provide a holistic care journey for our patients, from diagnosis, treatment, rehabilitation to discharge through our five key clinical programmes.

Be Better

PREVENTIVE CARE

Take the first step towards health empowerment and prevention with our **Well Programme** by being proactive with screening, exercise and treatment.

Age Better

ELDER CARE

Clinic K (Healthy Ageing Clinic)
Our **Healthy Ageing Programme** cares for the elderly's mind, mobility and sensory, orthopaedic and other geriatric and social needs holistically.

Get Better

ACUTE CARE

24-Hour, Walk-in Urgent Care Centre
The **FAST Programme** looks at emergency treatment from acute, sub-acute to rehabilitative care at our integrated wards.

Cope Better

SUPPORTIVE AND PALLIATIVE CARE

Champions for compassionate care and quality of life, at every age and at every stage, our **Supportive and Palliative Care Programme**:

- Enables and empowers everyone to care.
- Encourages caring across boundaries.
- Creates caring systems.
- Helps all to live well before leaving well.

Live Better

CHRONIC CARE

Clinic J (Integrated Care Clinic)
The **Chronic Programme** led by one doctor and one care team consolidates a patient's multiple conditions and treatment plans including medication and rehabilitation regime, into one appointment.

We provide a wide range of outpatient medical care at our various outpatient clinics and a full suite of specialist surgical services which support our five clinical programmes.

Our experienced specialist doctors at our Centres and Clinics are focused on delivering quality care to patients through collaboration and comprehensive evaluation, diagnosis and management of conditions and diseases
