

Flexible Cystoscopy

What Should I Take Note Of After The Procedure?

You may experience discomfort, a burning sensation during urination or encounter blood in your urine over the next one to two days after the procedure. If you have no restriction on fluid intake, drink 2 to 3 litres of fluid per day for the next one to two days.

When Should I Seek Medical Help?

Should you experience any complications such as those listed below, please visit our 24-HR Urgent Care Centre.

Bright red blood or heavy blood clots in your urine.

- Abdominal pain and nausea.
- Persistent fever (>38.5°C) and chills.
- Difficulty or inability to pass urine.
