

vCare (TeleConsult@AH) Occupational Therapy Service

Keep your health in check in the comfort of your home!

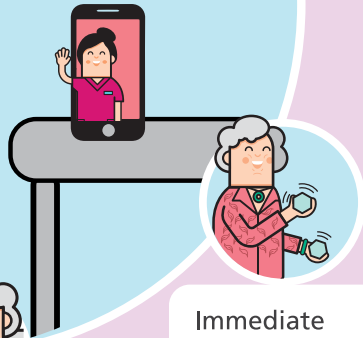

vCare Occupational Therapy Service

Access quality consultation with your therapist in the comfort of your home with vCare (TeleConsult@AH) Occupational Therapy service.

Benefits of vCare Occupational Therapy Service

Real-time review of your condition, treatment and advice.

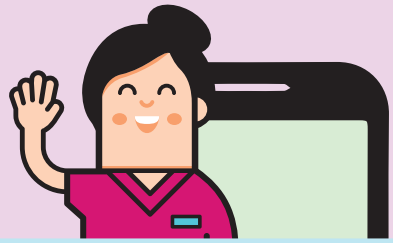

Immediate assessment and review of your progression.

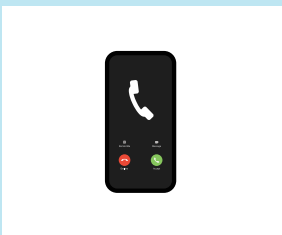

Early intervention to prevent decline in condition.

Our vCare Occupational Therapy consultation fee is subjected to your eligibility for subsidy.

Get Started With vCare

1 Before Your Appointment
Download the ZOOM Cloud Meetings app from the **Apple Store** or **Android Playstore** on your handphone, tablet or desktop.

2 Logging On
On the day of your vCare appointment, you will receive a phone call from the rehabilitation department's service associate to confirm your identity, and inform you of the meeting ID and password.

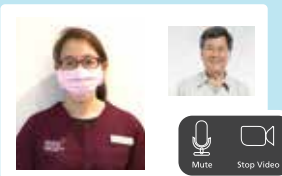

Please check that you are connected to the Internet with the appropriate devices.

3 Enter Details
Key in the meeting ID, password and your name as prompted.

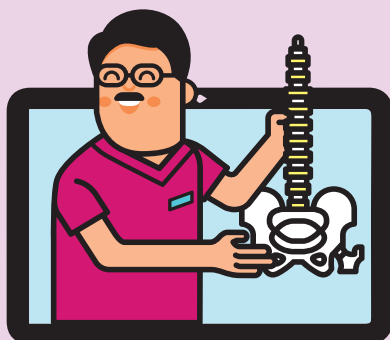

4 Enable Camera and Microphone
Make sure that ZOOM has access to your camera and microphone on your device.

5 Virtual Consultation
Look into your camera and talk to your Therapist as you would face-to-face. Please ensure your microphone is not muted. After your session, our staff will contact you to make your next appointment.

What You Need To Do Prior To Your vCare Session

- Familiarise yourself with the use of ZOOM meeting app.
- A laptop (preferred), tablet or mobile phone.
- A stable internet connection.
- A quiet and well-lit environment suitable for therapy session.
- Sufficient space to allow movement.
- Prepare any materials required beforehand (e.g. homework on laptop, notebook, pen).
- Provide your therapist with your exact location and address at the start of the session.
